MEMORANDUM

SUBJECT: Executive Council Meeting on 24 September 1974

Mr. Proctor chaired. There were no substitutes.

1. Mr. Proctor noted that the DIA INTSUM had stopped, to be replaced by Defense Intelligence Notices and collections thereof. Mr. Knoche said that General Graham is trying a system he advocated in his IC role, using different colored covers for "warning" and routine reports and offering round-the-clock coverage.

2. Mr. Lehman observed that the DIA scheme assumes people want routine intelligence at all times of day or night, a questionable proposition. CRS is not sure how it will handle the indexing and dissemination of the new product, and Mr. Eisenbeiss said he wants to see a model of all its formats. Reading requirements will have to be adjusted. Mr. Eisenbeiss and Mr. Lehman will meet later to discuss the matter.

3. Mr. Knoche reported that OSR and DIA are lined up on MC-161. The related estimate will be drafted by DIA and it will be chaired by [redacted] of DIA, but [redacted] will be seconded to the NIO shop for the project. The earlier proposal that Rae Huffstutler of OSR chair the estimate was turned down by General Graham on the grounds that DoD work on the MC-161 papers was so far advanced and [redacted] was so deeply involved in it that [redacted] was the logical estimate chairman.

4. Mr. Colby had asked at the Morning Meeting about the OPR paper on "Whither Arab Leadership." Mr. Lapham promised that an outline would be available soon.

6. Mr. Eisenbeiss reminded Office and Staff Chiefs of the display case CRS reserves in the library for outside publications by CIA authors. Mr. Proctor urged that any worthwhile papers that come to light be referred to Mr. Eisenbeiss for possible use in the display cabinet.
